

Raj Bhokare

Web Developer — Full Stack Developer

Pune, Maharashtra, India — +91 84597 63914 — bhokareraaj281@gmail.com

Portfolio — GitHub — LinkedIn — LeetCode

Professional Summary

Full Stack Developer and B.E. Information Technology undergraduate with strong expertise in React.js, Node.js, Express.js, REST APIs, MySQL, and MongoDB. Solved 250+ Data Structures and Algorithms problems and built AI-powered web applications, scalable backend systems, and production-ready full-stack solutions using Agile development, Git, and modern JavaScript technologies.

Technical Skills

Languages: Java, Python, C++, JavaScript, SQL

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap, EJS, Responsive Web Design

Backend: Node.js, Express.js, FastAPI, REST API Development, CRUD Operations

Databases: MySQL, MongoDB, Relational Database Design, Schema Design

Tools & Platforms: Git, GitHub, Postman, VS Code, Cursor, Firebase, Vercel, Render, Linux

Core Concepts: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks, SDLC, Agile Methodology

Experience

Web Development Team Lead

Sep 2026 – Present

Binary Brains Club, DIT Pune

- Lead a 10+ member Web Development team by planning development activities, assigning tasks, and coordinating project execution.
- Mentor junior developers in React.js, JavaScript, Node.js, Git, and modern web development practices through technical guidance and code reviews.
- Collaborate with design, DSA, and event teams to deliver scalable web solutions for club initiatives, hackathons, and technical events.

Member – Web Development Team

Sep 2025 – Aug 2026

Binary Brains Club, DIT Pune

- Organized DSA-focused coding events and coordinated technical activities for student participants.
- Contributed to multiple collaborative hackathons by developing responsive full-stack web applications using modern JavaScript technologies.

Education

Dr. D. Y. Patil Institute of Technology, Pune

Sept 2024 – May 2028 (Expected)

Bachelor of Engineering in Information Technology

CGPA: 8.71/10

Projects

Briefly – AI-Powered Meeting Assistant

GitHub

- Developed a full-stack AI meeting assistant that transforms meeting recordings into structured summaries, action items, and searchable transcripts.
- Integrated Whisper API with a Node.js and Express.js backend, designing modular REST APIs for automated speech-to-text and summarization workflows.
- Delivered and deployed the complete application within a 24-hour AI hackathon using Agile collaboration and rapid feature development.

Quizzer – Video Summarizer & Quiz Generator

GitHub

- Built an AI-powered learning platform that extracts video transcripts and automatically generates summaries and interactive quizzes.
- Implemented AssemblyAI speech-to-text integration, backend quiz generation logic, and REST API communication between frontend and server.
- Designed a responsive user interface using HTML, CSS, JavaScript, Bootstrap, and EJS for seamless educational workflows.

SevaConnect – AI Cooperative Service Marketplace

GitHub

- Architected a multi-tier cooperative marketplace using React, Tailwind CSS, Node.js, Express.js, MongoDB, and Python FastAPI microservices.
- Engineered FairMatch workforce allocation, emergency dispatch workflows, AI-powered provider ranking, and demand forecasting for equitable service distribution.
- Built secure role-based portals for Customers, Workers, and Cooperative coordinators with scalable backend architecture and persistent state management.

Achievements

- **Solved 250+** Data Structures and Algorithms problems across LeetCode and GeeksforGeeks.
- Maintained a **CGPA of 8.71/10** in B.E. Information Technology.
- Qualified for **Round 2 of Adobe 2026, Flipkart GRiD, and GDG 2025**; Qualified for **Final Round of GDG 2026**
- Built **Briefly AI**, an AI-powered meeting assistant, during the **DevClash 2026** 24-hour hackathon.
- Built **Quizzer**, an AI-powered video summarizer and quiz generator, during the **Vortexa 2025** 12-hour hackathon.
